ONLINE KINDERMISBRUIK**

# Arda Gerkens

## Current

President EOKM

Vice President Senate

## Past

President HCC

Member of the House of Representatives

Mom

The Online Child Abuse Expertise Bureau (EOKM) is an independent foundation established that is committed to combat and prevent online harm en violations, more specific (online) child sexual abuse.

We do so via three programs:

Ministerie van Justitie en Veiligheid

Medegefinancierd door de financieringsfaciliteit voor Europese verbindingen

**STOP IT  
NOW!**

Anonymous, confidential and free support to people with concerns about their sexual feelings and/or behaviour towards minors. Via chat, telephone and online tools.

**HELPWANTED**

Advies bij online misbruik

Notice and take down for online harm and abuse.

Open 7 days a week 16 hrs a day growing to 24 hrs.

**HELPWANTED**

Advies bij online misbruik

Online sexual abuse  
Harmful content  
Sextortion  
Cyberstalking  
Hacked account

**2022**

Total	7273
m/f	3209/3740
Sextortion	3275
Leaked image	2117

## Hotline for anonymous reporting CSAM material

	2022
Total	430.675
Illegal	119.342
Non illegal	278.414

# 3I's (hashcheckserver)

- Database known CSAM Hashes
- Free of charge
- Hashchecking via API
- GDPR proof
- Since 2019 8 million hits

# The CSEM Proposal

- EECC Temporary derogation
- Scan for csem/grooming in all communication
- Reports to EU centre
- Risk assessment
- Detection orders

## Concerns around the proposal

- Not specific as the committee had asked for
- Harmful for the healthy sexual development of children
- Violating article 16 convention of the Rights of the Child
- AI is a black box, certainly done by Big Tech
- Breaks E2EE creating an unsafe internet for all, and a greater risk for children
- Safeguards will not prevent abuse by National Governments
- It will lead to duplicate reports
- It will not hold up for the Court

# Legal

- European court of Human Rights: privacy infringement is possible when it is specific and goal oriented
- European Court of Justice: The European Charter article 7 addresses the right to privacy

# Good points of the proposal

- EU Centre as a centre for knowledge and support in the EU
- Multistakeholder approach (academia, tech, companies, NGO's and youth)
- Involve regulators in decision making
- Risk assessment
- Comply or explain or give fines
- Drive innovation
- Research

# Dutch approach

- Multi-stake holder
- Naming and shaming
- Regulator ATKM
- Comply or explain or give fines
- Drive innovation
- Research

Thanks!
